

*Village of Island Lake*  
*Department of Building • Zoning • Code Compliance*

An **Ownership Transfer Inspection** is required for any residential or commercial structure or vacant property before it is sold.

A Rental **Registration and Inspection** is required when a new tenant occupies the unit. Call the village 847-416-7857 to register and schedule the inspection.

Residential Rental Property owners must submit an application and payment per Village Ordinance 8-13. Rental inspections are \$50 and include the two-year registration fee. The form can be found on line [villageofislandlake.com](http://villageofislandlake.com). Units must be “move in” ready when inspection is done or a re-inspection will be required.

A \$50 registration fee is due for EACH property. A \$30 re-inspection fee will be required for any FAILED inspections. The seller or landlord is responsible for these fees.

Our goal is to help maintain safe structures in our community and these inspections are a great opportunity to achieve this. The village limits its inspection to obvious safety violations, areas which are not readily accessible (crawl spaces or attics) may not be inspected. Compliance will assure a safe environment for the new occupants and community as a whole.

### **Rental and Ownership Transfer Inspection Checklist**
