Re: AT&T Illinois Annual Consumer Video Services Report

Dear Ms. Rolando:

This Annual Consumer Video Services Report issued by Illinois Bell Telephone Company (AT&T Illinois) is transmitted to you for filing.

This filing complies with the annual reporting requirements in the Cable and Video Consumer Protection Law (the "Act") (220 ILCS 5/22-501).¹

On October 24, 2007, the Illinois Commerce Commission (the "Commission") approved the "Application for State-issued Authorization to Provide Video Service," filed by AT&T Illinois and granted it authority to provide video service in the requested video service area footprint. AT&T Illinois began providing video service in January 2008.

The Act applies to all cable and video providers in the State, including those operating under a local franchise as that term is used in 47 U.S.C 522(9), those operating under authorization pursuant to Section 5-1095 of the Counties Code, and those operating under a State-issued authorization pursuant to the Cable and Video Competition Law of 2007. Accordingly, AT&T Illinois is subject to the customer service requirements and privacy protections in Section 22-501 of the Act, and is required to file annual reports consistent with Section 22-501(g).

This annual report provides the information required by Section 22-501(g) of the Act. That provision requires a video provider, such as AT&T Illinois, to make an annual report stating that it is meeting the standards specified in the Act, identifying the number of complaints it received over the prior year in the State, specifying the number of complaints it received over the prior year in the State, and specifying the number of complaints related to each of the following: (1) billing, charges, refunds, credits; (2) installation or termination of service; (3) quality of service and repair; (4) programming; and (5) miscellaneous complaints that do not fall within these categories.

¹ This section was renumbered as §22-501 by P.A. 95-876, §220, *eff. Aug. 21, 2008 from §70-501 as added by P.A. 95-9, Art. 15, §15-25, eff. June 30, 2007.*

Prior to offering video services, AT&T Illinois implemented procedures and processes designed to comply with the standards specified in the Act.² In addition, it has implemented systems to track its performance with regard to those standards that have specified metrics. Where the company has failed to comply with the standards, it has identified corrective actions to bring it into compliance going forward. To the extent that AT&T Illinois has failed to comply with certain standards, it has issued credits to customers in the amounts required by Section 22-501(s) of the Act.

AT&T Illinois received 468 complaints regarding its U-verse video service during 2020. Section 22-501(g) of the Act requires the tracking and reporting of customer complaints as follows:

- Billing, charges, refunds, credits – 356
- Installation or termination of service – 23
- Quality of service and repair – 66
- Programming – 10
- Miscellaneous complaints – 13

We respectfully request Commission acceptance of this Report.

Any questions and correspondence regarding this filing should be directed to Deno Perdiou, Director-External & Regulatory Affairs, who may be reached at:
