October 2026 Reminder of Water Rate Increase

Residential

In September of 2025, the Village mailed a letter outlining the water rate increase over three years, effective on the third quarter bill in 2025, 2026 and 2027. A copy of the letter is available on our website in the Public Notices section.

Effective with the October 2026 (third quarter) bill, the water usage rate will increase to $10.50 per quarter. Effective as of **the third quarter 2027 bill**, the water usage rate will be $11.50 per quarter.

The ongoing water meter replacement project for installation of new, efficient meters for all water customers will alleviate water loss and lost revenue due to broken, outdated or under-reading meters. To date, approximately 1,500 of the 3,100 meters have been replaced. We appreciated our residents' cooperation in the project.

We thank you for your understanding and support in our goal to keep delivering to you the best water product possible.

Commercial

In September of 2025, the Village mailed a letter outlining the water rate increase over three years, effective on the third quarter bill in 2025, 2026 and 2027. A copy of the letter is available on our website in the Public Notices section.

.
