6. NEXT MEETING: February 2, 2017 at 6:30pm.

7. PUBLIC COMMENTS:

- a. P. Nelson - Inquired about water quality concerns, how the improvement of water quality by the aeration/water movement project would be measured and how soon improvement would be seen. LMC and DNR have observed a decline in water quality over several years. Improvement will be measured mainly by sight with the reduction in the growth of weeds and algae. LMC anticipates 3 years to determine conclusive results regarding effectiveness.
- b. E. Nelson - Inquired about aeration/water movement project timeline. LMC recommends installing aeration/water movement in Circle Lagoon and Forest Bay which are considered to be the most problematic of areas. Further investments would be considered only after positive effects are observed.
- c. G. Zivic - The Lion's Club will host the Ice Fishing Derby on February 4, 2017.

8. ADJOURNMENT:

- a. Motion by L. Nelson with second by P. Miendl to adjourn. Meeting ended at 7:29pm.
