 - a. INFO: Hydrographic Survey/Sedimentation Study-Ken Wick. VOIL discussed at 9-26-2019 village meeting and trustees requested former studies of the health of the lake that have been conducted. 9 lakes study performed by the EPA and the Chicago Metropolitan Area of Planning (CMAP) and a study completed by the Lake County Health Department for Island Lake emailed to the board of trustees for review. See lower attachments. As you read the study, you will see that our lake falls into the bottom 10 percent when it comes to lake quality and is rated "Poor" by the Lake County Health Dept. The next VOIL meeting is 10-10-2019 and may be on the agenda. LMC Budgeted funds reallocated to cover the expense of the proposed survey.

 - c. INFO: Public request for University Involvement-Tané Howland. At the 9-26-2019 VOIL meeting, public comments requested outside help for the health of our lake from local colleges and universities. The LMC will respectfully ask Major Amrich to pursue the request of the people.
