As Chairperson, I would like to ask that each member follow through with the above assigned research and information in a timely fashion. Please remember: These are “Lead Responsibilities”. This means you will be the lead liaison for each project as listed. Delays in gathering as much information as possible will only delay the entire progress. Remember that we are a TEAM. So if for ANY REASON you feel you cannot complete the assigned task, please let me know ASAP and we can work on a plan for others to help out. The goal of this committee is to gather as much information as possible for the betterment of our lake without delay and to keep things moving forward. Please reach out to other members if you have any questions or concerns. Please keep me updated weekly via email with your progress so I can relay information back to our Mayor, Board of Trustees and others as needed.
