Eastway Park Lake 76	SeClear	55.0 gal	Planktonic Cyanobacteria	9.02	26.7		3	High

COMMENTS

Heavy aroma of planktonic cyanobacteria about the lake. Heavy congregations of cyanobacteria in the downwind side of the lake with visible populations throughout the lake. Today’s treatment focused on the areas of the lake with the most abundant amounts.

- The following areas were treated:
- South Bay DO 9.02 Temp 26.7
 - Channel 2 DO 5.09 Temp 25.6
 - Southwest Bay DO 6.87 Temp 27.7
 - Eastern shoreline between South Bay and Channel 2

Dissolved oxygen levels were at or above 9.0 mg/L in the main basin.
